

BIO POWER

Low Carbon Fuels

GASOLINES - E20

Premium & Super

The smart choice to maximize performance with the least environmental impact.

A unique advanced composition on the market, **20% bioethanol**, ensures maximum power and low sulfur content, contributing to reduced emissions.

Formulated to provide optimal performance in any type of engine, ensuring powerful and environmentally friendly driving.

Biopower is now synonymous with POWER, efficiency, and responsibility.

Compliance with RED standards and international ISCC certification

GASOLINE E20 - PREMIUM

Product Description: Grade 3 gasoline. This product complies with Energy Secretariat Resolutions 1283/06, 478/09, and 5/16

Compliance with RED standards and ISCC certification

GASOLINE E20 - SUPER

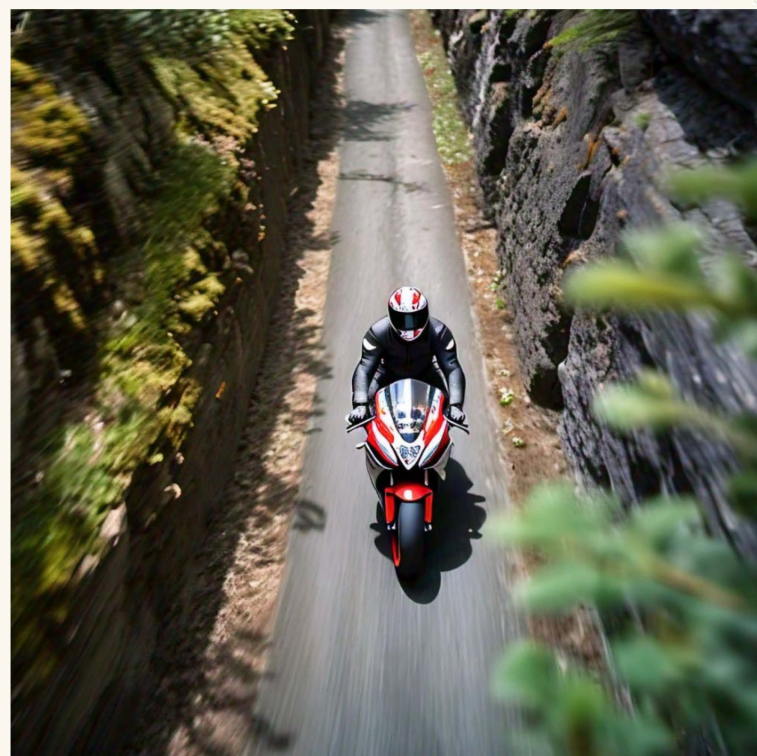

Product Description: Grade 2 gasoline. This product complies with Energy Secretariat Resolutions 1283/06, 478/09, and 5/16.

GASOLINE E20 - PREMIUM

PROPERTY	UNIT	VALUE	METHOD
Density at 15°C	g/cm ³	0,745	ASTM D-4052
RON (Research Octane Number)	-	97.5	ASTM D-2699
MON (Motor Octane Number)	-	87.5	ASTM D-2700
Bioethanol	% vol.	20	ASTM D-4815
Sulfur	mg/kg	< 10	ASTM D-5453
Benzene	% vol.	< 1	ASTM D-6839

GASOLINE E20 - SUPER

PROPERTY	UNIT	VALUE	METHOD
Density at 15°C	g/cm ³	0,745	ASTM D-4052
RON (Research Octane Number)	-	95.5	ASTM D-2699
MON (Motor Octane Number)	-	84.5	ASTM D-2700
Bioethanol	% vol.	20	ASTM D-4815
Sulfur	mg/kg	< 50	ASTM D-5453
Benzene	% vol.	< 1	ASTM D-6839

BIOPOWER: Producing today the low-carbon fuels of the future.
